

DANIEL C. SHOUP

Okemos, Michigan 48864 • dan.c.shoup@gmail.com • 231.645.8633

SUMMARY

Customer-focused web developer, combining strong technical skills with a background in education, product development, and business management. Successfully completed the Full-Stack Web Development Boot Camp at Michigan State University. A natural problem solver, with strong leadership and teambuilding skills. Brings project management and classroom teaching expertise to team-driven projects. Looking to leverage recently learned technical skills and past experience as part of a fast-paced development team to help create quality interactive user experiences on the web.

- Excellent writing and communication skills.
- Quick to adapt and thrive in multi-faceted, fast-paced environments.
- Performs well as part of a diverse team and works to promote group cohesiveness.
- Natural leader and decision maker in high pressure environments.
- Meets positive goals in a thorough, accurate, and timely manner.

TECHNICAL SKILLS

Languages: CSS, HTML, JavaScript, NodeJS, React.js

Databases: MySQL, MongoDB

Tools: Git, Heroku

PROJECTS

Sip

<https://danshoup.github.io/build-a-cocktail/> | <https://github.com/danshoup/build-a-cocktail>

- Summary: Sip, or Spirit Index Program, is a web application that utilizes TheCocktailDB API to search for cocktail recipes using a base liquor (vodka, rum, gin, whisky, etc.), and the Yelp Fusion API to search for local bars that serve cocktails if you don't feel like making them at home.
- Role: Front-end developer
- Tools: HTML, Node.js, Bulma CSS Framework, JavaScript, Git

Sign Up, Idiot!

<https://hidden-earth-06071.herokuapp.com/> | <https://github.com/danshoup/sign-up-idiot>

- Summary: A website for everyone, not just the geniuses! "Sign Up, Idiot!" makes volunteering for events in your area simple and quick. It gives users the opportunity to create, manage, and sign up for events from a single profile.
- Role: Front-end developer
- Tools: Node.js, Handlebars, Express, Sequelize, Bcrypt, Bootstrap, Git, Heroku

Game On!

<https://game-on-msu-2021.herokuapp.com/> | <https://github.com/danshoup/Game-On>

- Summary: Game-On a Full-stack MERN application that is an online "spit-and-a-handshake", friendly competition app. It allows users to either organize or participate in a challenge, make a wager, and log the results in their user profile for future bragging rights.
- Role:
- Tools: Express, Mongoose, GraphQL, Apollo Sandbox, Compass, MongoDB, React.js, React-Bootstrap

EXPERIENCE

CONSCIOUS COFFEES, Boulder, Colorado.

2015-2021

Director of Special Projects. Managed deliveries, invoicing, web support, and assisted with communications and facilities maintenance for Conscious Coffees brand.

- Streamlined the delivery system, and created a reliable delivery format for clients.
- Maintained a consistent invoicing process for Conscious Coffees and its clients.
- Curated company websites, blogs, and social media sites.
- Provided in-house network and technological assistance as needed.
- Assisted with general inventory improvement, and social outreach.

FOOD FOR THOUGHT, Honor, Michigan.

2013-2014

Director of Special Projects. Managed product development, web support, and assisted with communications and facilities maintenance for Food for Thought and Esch Road brands.

- Created recipes for a new line of mustards, caramel sauces, jellies, and reformulated barbecue sauces.
- Managed product development projects from inception to production.
- Worked with customers to develop and produce private label products.
- Maintained company websites, blogs, and social media sites.
- Provided in-house network and technological assistance as needed.
- Assisted with general facility improvement, machinery maintenance, and construction projects.

SEEDS AFTER-SCHOOL PROGRAM, Frankfort, Michigan.

2009-2012

Site Coordinator for grant-funded, after-school program serving at-risk middle and high school students. Created hands-on, educational, and experiential opportunities for youth.

- Recruited and supervised staff, volunteers, and contractors for multiple after-school programs.
- Managed site facilities and budget, including achieving required participation targets.
- Recruited hundreds of students to participate in after-school programming.
- Worked collaboratively with school administration, staff, and parents, to create after-school opportunities.
- Managed summer Youth Conservation Corps program staff and team members, providing green job experience for at-risk youth.
- Created and lead staff of summer-long day camp for middle school students.
- Worked closely with professional musicians to develop and lead a "School of Rock" camp for students from 12 area schools.

NORTH COAST IMPROVEMENTS, Empire, Michigan.

2007-2009

Owner/President. Responsible for all operations of a small home renovation business. Worked closely with customers and suppliers to estimate and complete projects to customer specifications.
